

SHORE HOUSE

EXPLORE THE WORLD OF CONCRETE HOMES

USA is dedicated to creating beautifully and creatively designed, sustainable, energy efficient, affordable, durable, and safe homes that give many more Americans a shot at homeownership. Inspired by extensive architectural and engineering work, our goal is to provide buildings that are more than houses – our concrete insulated homes are designed to be homes that will last decades with minimal maintenance and make homeownership more affordable. These homes are modern yet timeless.

COMFORT AND COMMUNITY

The Shore House is ideal for a family home or a vacation home. Soak up the sun in this beautiful contemporary beach house--the perfect home for a coastal community. Large expanses of glass give the interior a completely open feel to enjoy the view. The interior feels larger because of its openness and panoramic views so it makes way for an interior light well that brings natural light throughout the home.
